

his Newsletter reflects the collaborative efforts of the following centers engaged in clinical transplantation of adult and fetal islets. Their support to the Registry is gratefully acknowledged. The asterisk indicates the centers that have sent report forms to the International Pancreas and Islet Transplant Registry in Minneapolis in former years. When the responsibility for the islet component was transferred to Giessen, these forms were graciously passed on to the Islet Transplant Registry by Dr. David R. Sutherland and Kay C. Moudry-Munns.
