

## Acknowledgements

This ITR-Newsletter became possible through the support of the following centers having ever been engaged in the field of adult and fetal islet transplantation. Their cooperation is gratefully acknowledged.

When the responsibility for the islet component was transferred to Giessen in 1989 the reports to the International Pancreas Transplant Registry (IPTR) were graciously passed on to the ITR by Dr. David E.R. Sutherland and Kay C. Moudry-Munns.

<sup>1</sup> Centers that had reported to the IPTR before 1989 only

<sup>2</sup> Centers that had reported to both the IPTR and the ITR until 1989

<sup>3</sup> Centers reporting to the International Islet Transplant Registry since 1989

<sup>4</sup> Centers that have recently started a clinical program and not reported to the ITR yet
