

Acknowledgements

This ITR-Newsletter became possible through the support of the following centers having been engaged in the field of adult islet transplantation. Their cooperation is gratefully acknowledged.

When the responsibility for the islet registry component was transferred to Giessen in 1989, the reports to the International Pancreas Transplant Registry (IPTR) were graciously passed on to the ITR by Dr. David E.R. Sutherland and Kay C. Moudry-Munns.

In case of change of address, please notify the ITR office:

- International Islet Transplant Registry Office, Giessen
- North American Islet Transplant Registry Office, Minneapolis
